BS Management in Anticipation of Monetary Policy Change in Japan

- Restructure our yen interest rate portfolio
- Providing diverse solutions and highly convenient services via both real and digital channels

< Possible impact of JPY interest rate hikes (provisional calculation)*5 >

■ Hikes in long-term interest rates (the abolishment of the yield curve control policy)

- A provisional calculation premised on shifting a portion of funds held in BOJ current accounts to Japanese government bonds, etc., with instruments in the five-year maturity zone as targets (assuming an increase in margin to around 0.4%) ⇒ +JPY20.0 bn

■ Hikes in short-term interest rates (the lifting of the negative interest rate policy)

- A provisional calculation based on assumptions we have formulated for prevailing trends at the time of lifting that takes into account the status of deposits and loans as well as changes in current account interest rates at BOJ at the time of the introduction of said policy ⇒ +JPY10.0 bn

*1. Total of group banks *2. Including external group *3. Total of group banks, listed stocks, acquisition cost basis *4. Digital Garage

*5. The provisional calculation for the impact on annual profit reflects expected circumstances after the full effect of interest rate fluctuations materializes

Composition of Loan Portfolio and Deposits

Composition of loan portfolio

Composition of deposits^{*3}

*1. Including apartment loans *2. Market rate-linked loans include the fixed-rate (spread) loans maturing in less than one year

*3. Domestic individual deposits + Domestic corporate deposits

The Merger of HD and KMFG (Planned in April 2024)

Towards further strengthening the consolidated management of Group companies

So Far

KMFG functions contributed to speedy post-merger integration (PMI)

■ KMFG leads the way in the start of the largest regional banking group in the Kansai area

- Rollout of Group products and services ⇒ Realize top-line synergies
- Unify the mode of back-office operations throughout the Group while reforming branch-counter infrastructure ⇒ Realize cost synergies
 - Complete the integration of KMB's back-office operations and systems within a one-and-a-half-year time frame
 - Restructure the branch networks of KMB and MB via the use of the branch-in-branch (BinB) method, etc.
- Invigorate the interaction of human resources across the Group and remove boundaries among them

Expansion of contribution to group income

*1. Excluding gain from negative goodwill

Going forward

Shifting to a new organizational structure to facilitate fresh growth

■ Strengthen Group governance

- Upgrade on a consolidated management of Group companies
- Facilitate speedier and simple decision making
- Empower each subsidiary bank to execute effective growth strategies

■ Toward the establishment of a “one-platform, multi-regional strategy”

- Pursue more efficient business management via the integration of back-office operations and indirect departments
- Four banks strive to deliver optimal value to customers in light of the characteristics of the regions they serve

Accelerate initiatives to realize “Retail No. 1”

Beyond Finance,
for a Brighter Future.

Initiatives to Reduction of Policy-Oriented Stock Holdings

Policy for holding policy-oriented stocks*1

- Since the capital enhancement with public funds, Resona Group has reduced the balance of the policy-oriented stocks to lessen the risk of price volatility. Our basic policy is to continue to reduce the balance of policy-oriented stocks.
- The Group determines whether to hold policy-oriented stocks by evaluating the risks and returns, including feasibility of the development of a trading relationship in a medium- to long-term.
The Group may also sell stocks in consideration of the market situations, management and financial strategies, even though the Group considers appropriate for holding from the risk-return perspective.

■ Balance of listed stocks disposed 1H of FY2023

(acquisition cost basis): JPY11.3 bn

Net gain on sale (acquisition cost basis) :

JPY22.1 bn (HD consolidated: JPY21.7 bn)

Breakeven Nikkei average: Approx. 7,400 yen

■ Aim to further reduce the balance under the current plan, which accelerated the pace of reduction

- Steady progress compared to plan

- Utilized in fields that contribute to solving social and customer issues

*1. Policy-oriented stocks are classified into (1) policy investment stocks and (2) strategic investment stocks, according to the purpose of holding.
Of these, (1) policy investment stocks are targeted for reduction of the balance. All listed shares held by group banks are (1) policy investment stocks

*2. Total of group banks, acquisition cost basis, marketable securities and policy investment stocks only

*3. Reference: Market value of about JPY(250) bn (Estimated based on the market value of the policy-oriented stock as of Mar. '22)

Upfront Investment in Human Capital

Focusing on securing diversity, enhancing specialist strengths
and ensuring well-being in human resource portfolio development

Human resource (HR)-related investment
during the MMP period:
+JPY33.0 bn (cumulative total of three years)

- Enhance employee engagement

*1. Core income (Net interest income from domestic loans and deposits + Interest on yen bonds, etc. + Fee income + Operating expenses) / workforce

*2. Ratio of new graduates (earmarked for specialist courses) + mid-career hires to overall hiring *3. Target for FY2030 (individuals who have acquired high-ranking qualifications via in-house specialist certification systems or other similar qualifications)

Taking on Further Challenges by Building on Resona's 20 Years of Reform

Entrench Purpose × Pass down the “DNA of Reform”
⇒ Accelerate sustainable improvement in social and corporate value

A path toward sustainable improvement in value

■ Initiatives to ensure the entrenchment of the Purpose

- Customers / Society
 - Gain public recognition of our corporate activities informed by the Purpose
 - TV commercials and web advertisements
- Employees
 - Implement training, prepare tools and content aimed at securing employee understanding
 - Dialogue between top management and employees, the enhancement of employee performance evaluation and commendation systems

<Resona Group Purpose>

Beyond Finance, for a Brighter Future.

■ Issued a book regarding the Resona Group's corporate history for the first time (Sep. '23)

- Features our sense of gratitude for stakeholders who have supported us to date and a strong commitment to our mission
- Ensure that the “DNA of Reform” we have cultivated through the Resona Reform following the injection of public funds is passed down to the next generation

<Resona's mission>

Translate each customer initiative into value of social impact

■ Facilitate transition by engaging in deeper dialogue with an awareness of changes in trends

- Step up the dissemination of information regarding industry trends, etc.
 - Enhance our tools used for this purpose in addition to reviewing the frequency of information delivery
- Implement measures to boost employee skills on an ongoing basis
 - Job rank-based training focused on SX and other training programs addressing specific themes

■ Offer diverse solutions to serve customers at various stages of initiatives

Personal field

■ Initiative for individuals loans field

- Privileges granted to loan borrowers who purchase eco-friendly housing
- Information services for people considering purchasing housing
- Release of SX housing loans (RB/SR) (Apr. '23-)
 - (Expanded scope of SX housing covered by the loan scheme: low-carbon housing, housing built using domestically produced wood, housing that conforms with “Anshin R” standards, etc.)

- Offer information on legal regulations, subsidy programs and other industry trends for construction and real-estate businesses

Facilitate the popularization of eco-friendly housing

E (Environment): Carbon Neutrality (1) -Scope1&2-

Initiatives to reduce greenhouse gas (GHG) emissions (Scopes 1 & 2) arising from the Group's energy use

■ Measures to achieve our carbon neutrality target (reducing CO2 emissions to net zero by the end of FY2030)

- Steadily reduce the volume of CO2 emissions via the proactive introduction of clean energy, such as renewable energy, with the utmost priority placed on reducing emissions attributable to electricity use, the source of 80% of our emissions

[Breakdown of FY'22 emissions]

E (Environment): Carbon Neutrality (2) -Scope3-

Initiatives to reduce GHG emissions (Scope 3, Category 15) from our investment and financing portfolio

- Committed to achieving net zero by 2050 in terms of GHG emissions from our investment and financing portfolio
- Identified interim targets to be achieved by the end of FY2030 for investees/borrowers in the energy sector

Initiatives undertaken thus far	Identification of interim targets in May 2023
- Identified “Real estate / Construction,” “Automotive / Transportation” and “Energy” as priority sectors in light of such factors as the potential impact of climate change on carbon-related sectors specified by the TCFD^{*1}, the size of our portfolio, and a sector-based analysis of financed emissions determined using simple calculation methods. - Further analyses, including quantitative risk assessments, were also conducted.	- Implemented the assessment and analysis of financed emissions, emphasizing the energy sector over other priority sectors as it has already seen advances in the development of measurement methods and data accumulation - Measurements of three sector components were conducted^{*2}: “Electric power,” “Oil / Gas” and “Coal.”

[Breakdown of financed emissions by sector]

[Energy sector (Electric power, Oil/Gas, Coal) of financed emissions]

	Scope subject to GHG emission calculation	Indicators	Results('22/3)	Amount of investments and loans
Electric power	Power generation Scope1	Physical carbon emission intensity	139 gCO2e/kWh	JPY276.0 bn
Oil / Gas	Mining Scope1-3	Absolute volume	0.17 MtCO2e	JPY7.4 bn
Coal	Mining Scope1-3	Absolute volume	—	(Not applicable)

- Taking the above factors into account, we have identified interim targets for the energy sector (targets have not been set for “Oil / Gas” and “Coal” as the number of customers in these fields is very low)

Concepts behind target setting for the energy sector	- The current carbon emission intensity, which amounts to 139gCO2e/kWh, falls short of the standard for 2030 envisioned in the 1.5°C scenario (NZE2050),^{*3} due mainly to the general termination of new project financing for coal-fired power generation businesses and proactive lending to domestic borrowers engaged in renewable energy-related businesses. - On the other hand, the energy sector is an infrastructure component supporting all industries as well as people's daily lives. Accordingly, pursuing the decarbonization of this sector is essential to helping retail customers achieve decarbonization. - Therefore, we will strive for the popularization of renewable energy, which is integral to nationwide decarbonization, while supporting power generation businesses endeavoring to achieve transition and technological innovation. In these ways, we aim to reduce emissions from the energy sector to a level that is substantially lower than the global standard stipulated in the 1.5°C target.
Interim targets	Carbon emission intensity in FY2030: 100 to 130gCO2e/kWh

*1. The Company's sector classification consists of “Energy,” “Real estate/Construction,” “Automobile/Transport,” “Materials,”

“Agriculture/Food,” “Paper pulp/Forestry products,” and “Banking/Life Insurance.” *2. Calculated with reference to methods developed by the PCAF

*3. Comparison with the 2030 carbon emission intensity (165gCO2e/kWh) envisioned in the NZE2050(WEO2022)

E (Environment): Carbon Neutrality (3) -Scope3-

Initiatives to reduce GHG emissions (Scope 3, Category 15) from our investment and financing portfolio

■ Basis for the calculation of financed emissions

- The volume of GHG emissions from each investee/borrower corporation is multiplied by the attribution factor (Balance of investment and financing / Sum of assets and liabilities) and the resulting numerical values for all investee/borrower corporations are aggregated

	Formula	Coverage ratio*1	Data quality score*2
Energy sector	$\sum \left(\text{Carbon emission intensity of investees/borrowers (gCO2e/kWh)} \times \frac{\text{Value of investment/financing by the Company for investees/borrowers}}{\text{Total value of investment/financing by the Company for all investees/borrowers subject to calculation}} \right)$	85%	2.1
Oil/Gas sector	$\sum \left(\text{Volume of emissions from investees/borrowers (MtCO2e)} \times \frac{\text{Value of investment/financing by the Company for investees/borrowers}}{\text{Sum of borrowings and capital held by investees/borrowers}} \right)$	100%	3.0

■ Initiatives to be undertaken going forward

- ◆ To achieve our interim targets regarding the energy sector, we will proactively extend credit to corporations engaged in renewable energy-related businesses that will, in turn, facilitate the smooth transition of all other customers. Simultaneously, we will actively pursue dialogue with investees/borrowers and provide them with follow-up consulting on their initiatives.
- ◆ We will annually disclose the status of financed emissions associated with the “Energy,” “Oil / Gas” and “Coal” sectors while considering the assessment of financed emissions from priority sectors other than the energy sector and the formulation of interim targets for them.
- ◆ We are aware of the need to expand the scope of financed emission assessments to, ultimately, encompass our overall portfolio, including credit extended to retail customers, and will thus be striving to reduce emissions from this portfolio. Accordingly, we will continue to act as a “running partner” for retail customers and assist them in the transition of their awareness and modes of behavior. By doing so, we will strive to assess and reduce the volume of financed emissions associated with credit extended for retail customers.

Main initiatives and the status of their progress

■ 13th Resona Women's Council (Apr. '23-Mar. '24)

- Members: 20 people from group banks and companies
 - Members consist of diverse individuals (in terms of rank, age, etc.) from a range of Group companies and serving terms spanning one year who regularly meet on a monthly basis
 - Engage in bottom-up activities, i.e., delivering proposals on women's networking, the enhancement of women's career awareness, the revision of various personnel systems, the implementation of operational improvement measures and the planning of new products

A picture taken at the meeting

[Main achievements deriving from Resona Women's Council]

- Enhancement of childcare leave-related programs
- Institution of a mentoring system
- Introduction of a reinstatement support program
- Establishment of the Job Return System
- Launch of a system enabling transition from full-time to part-time employee status and vice versa^{*1}

■ Expand the scope of employees eligible for the mentoring system for female manager candidates

- The mentoring system for newly appointed female department or branch managers has been in place since 2012
- In FY'22, women who have been newly appointed as manager candidates and assigned to positions immediately below department or general managers, are now included in the scope of eligibility to the system

■ Step up initiatives to encourage male employees to play greater roles in child rearing

- Established a framework allowing cessation from work for childcare upon childbirth in line with the revision of relevant laws in Oct. 2022

< The Resona Group's Response >

- ✓ The first 14 days of cessation from work for childcare upon childbirth shall be paid leave

[Flow of cessation from work for childcare upon childbirth]

- ✓ Hold seminars focused on facilitating cessation from work for childcare over the course of a period spanning Aug. to Sep. 2022
 - Scope: All business unit supervisors of Group banks
 - Total number of participants: Around 1,000

Policy for holding policy-oriented stocks

- Since the capital enhancement with public funds, Resona Group has reduced the balance of the policy-oriented stocks to lessen the risk of price volatility. Our basic policy is to continue to reduce the balance of policy-oriented stocks.
- The Group determines whether to hold policy-oriented stocks by evaluating the risks and returns, including feasibility of the development of a trading relationship in a medium- to long-term. The Group may also sell stocks in consideration of the market situations, management and financial strategies, even though the Group considers appropriate for holding from the risk-return perspective.

Capital Management of the MMP

[Composition of capital utilization] (JPY bn)

*1. Based on the full enforcement of the finalized Basel 3 regulations under the international standard; excluding net unrealized gains on available-for-sale securities

*2. Net income attributable to owners of parent / Total shareholders equity (simple sum of the balance at the beginning and the end of the term/2)

Financial and Non-Financial Approaches to Improve Corporate Value

Measures to be implemented during the MMP period

Improve profitability and asset efficiency via the proactive utilization of capital

(Organic) Enhance higher risk-return lending assets
(Inorganic) Enhance customer bases, management resources and functions

Step up investment in human capital ⇒ [Further development and new challenges]×[Co-creation and expansion of value]

Core income +JPY17.0 bn (Target)

Upgrade our mode of risk governance

Expand shareholder return

Aim for a total shareholder return ratio of around 50%

Seize upside profit opportunities that arise at the time of interest rate hikes

Further reduce policy-oriented stockholdings

The pace of reduction : JPY(20.0) bn per year

Analysis of the current status of ROE

- ROE deteriorated over the course of the previous MMP

- Rapid expansion of BS / Growing volume of assets with low utilization
⇒ Need to improve risk-return by adopting a more proactive approach to risk-taking endeavors
- Downside risks materialized and affected P/L via the recording of major credit-related costs, outlays resulting from measures to restore foreign bond portfolio soundness, etc.

Resona Group's Brand Identity

The Resona Group's corporate name was derived from the Latin word (resonus) meaning "resonate" or "resound" in English.

We attach great importance to customers' voice.
By adopting the corporate name Resona, we want to express our desire to build stronger ties with our customers by "resonating" or "resounding" with them.

Group Logo expresses the resonance between the "R" in Resona and the "R" in the Group's key word "Regional."

RESONA

The two "Rs" inside a perfect circle to express a sense of security and trust.

Green suggests "gentleness" and "transparency" and orange creates a sense of "familiarity" and "warmth."

Verification Process for Value of Holding of Policy-Oriented Stocks

Basic Concepts on the Exercise of Voting Rights of Policy-Oriented Stocks

- **Resona group has established the “Policy for the Voting Right Exercise Standards of Holding Policy-Oriented Stocks” in relation to exercise the voting rights of policy-oriented stocks. We have built a process to individually judge and verify the approval or disapproval of all proposals.**

- Fundamental concepts on the exercise of voting rights (Described in “Standards for the Exercise of Voting Rights of Policy-Oriented Stocks”)

The Resona Group will exercise voting rights of policy-oriented stocks based on the following policy:

1. Irrespective of interests of transactions with clients, make an effort to vote yes or no on an individual basis from the viewpoint of sustainably improving corporate value;
2. Not to exercise voting rights in a manner to resolve certain political or social problems; and
3. If any scandal or an anti social act is committed by a company or corporate manager, etc., exercise voting rights with the intention of contributing to the improvement of corporate governance.

- Guidelines for the Exercise of Voting Rights

With the aim of exercising its voting rights in an appropriate and efficient manner, the Group will abide by the following guidelines:

1. Base voting judgments on the following points:
 - a. whether the way the vote is cast helps the Company and/or the investee achieve sustainable and long-term growth in corporate value;
 - b. whether the way the vote is cast is consistent with the overall interest of shareholders.
2. In particular, before casting a yes or no vote on one of the following types of agenda items, give due consideration to whether voting contributes to growth in the investee’s corporate value:
 - a. shareholder proposals;
 - b. introduction or renewal of anti-takeover measures;
 - c. agenda items proposed by a corporation that was found to be implicated in a scandal or an antisocial act;
 - d. approval of financial statements not backed by an unqualified opinion issued by the accounting auditor;
 - e. dismissal of directors, accounting auditors, etc.
3. When a vote is cast in opposition to the Company’s intention, the Board of Directors will review the status of the exercise of voting rights to confirm whether these guidelines were fully observed. The Company will also strive to increase the sophistication of its exercise of voting rights by, for example, revising these guidelines.

Responses to the Ongoing International Discussion over Further Tightening of Financial Regulation

Major items of financial regulation being discussed internationally / Impact on Resona

- There are no regulations that have a significant impact on us, including the finalization of Basel 3, and we are steadily preparing for the application of each of these regulations.

Major regulatory items	Outline of regulation	Important updates
Finalization of Basel 3 • Review of Standardized Approach (SA) (Credit and operational risks) • Review of IRB approach • Capital floor based on SA	Reviewing credit risk calculation method to enhance the risks sensitivity and improve comparability. Reviewing operational risk calculation method to reflect loss data. New capital floor rule requiring a reference to the SA (final output floor calibration : 72.5%).	• Impact of Basel 3 finalization has already been factored into each strategy. • Common Equity Tier 1 (CET1) capital ratio based on finalized Basel 3 (excluding net unrealized gains on available-for-sale securities) is around 10.1%※ ※Trial calculation to CET1 capital ratio of 12.21% as of Sep. 30, 2023 by only taking in consideration the estimated increase in RWAs due to the finalization of Basel 3 (SA and capital floor revisions, fully phased-in basis).
Liquidity regulations (LCR/NSFR)	[LCR] Requiring banks to hold high-quality liquid assets to prepare for significant outflow of funds under a severe stress. [NSFR] Requiring banks to hold certain capital and liabilities for the risk of having illiquid assets.	• Minimum requirements are applicable to banks subject to the International standard.
Leverage ratio	Introduced to complement capital adequacy ratio requirements. Tier 1 capital as a numerator. Exposure amount, not RWA, to be a denominator.	
IRRBB (Interest rate risk in the banking book)	To strengthen the interest rate risk management by measuring the decline in economic value of equity (△EVE) and net interest income (△NII) under certain interest rate shock scenarios.	• Pillar 2 regulation. The threshold of △EVE is set at within 15% of Tier 1 capital (in case of domestic standard banks, within 20% of Total capital), the figures are within the threshold.
Derivatives-related (SA-CCR, CVA, etc.)	Reviewing the calculation method of derivatives exposure and CVA.	• Adoption of SA-CCR (Standardized Approach) and regulatory accounting CVA is under preparation for introduction.
Various capital buffers G-SIBs/D-SIBs, TLAC	Capital buffer requirements include capital conservation buffer, counter-cyclical buffer and SIBs' buffer. TLAC requires banks to hold additional capacity to absorb loss.	• Capital buffers are applicable to G-SIBs/D-SIBs, and banks subject to the International standard. TLAC is applicable to G-SIBs and other.
Discontinuation of LIBOR (London Interbank Offered Rate)	Major tenors in the U.S. dollar LIBOR will be discontinued at the end of Jun. 2023, and other LIBOR will be discontinued at the end of Dec. 2021.	• Completed migration as planned
