These factors may include changes in the level of stock price in Japan, any change related to the government's and central bank's policies, laws, business practices and their interpretation, emergence of new corporate bankruptcies, changes in the economic environment in Japan and abroad and any other factors which are beyond control of the Resona Group.

These forward-looking statements are not intended to provide any guarantees of the Group's future performance. Please also note that the actual performance may differ from these statements.

Points We Would Like to Communicate

1

Results for the 1H of FY24 suggest **a progress ratio of 69.2% against the initial target for full-year operating results**

- **Upward revision of earnings targets for FY24: JPY175.0 bn** / Excluding one-off expenses associated with the integration of MB: **JPY190.0 bn level**

2

To improve corporate value, we are continuing to strive for both higher ROE and lower cost of capital

- **ROE (stockholders' equity)** FY23 7.2% ⇒ **FY24 (Target) 7.7%**

3

With the return of a world with interest rates, **we have been expanding top-line income via the use of two income sources (net interest income + fee income)**

- Improvement in ROA through proactive balance sheet management is the main driver for higher ROE

4

Expand strategic investment as needed to secure future growth **while curbing base costs**

- **Reduce the cost income ratio to the 50% range** as early as possible, leveraging expansion in top-line income (1H of FY24: 63.9%)

5

Steadily enhance shareholder returns

- In addition to the actions taken in 1H, we announced **JPY20.0 bn share buyback for 2H** (**Total shareholder return ratio for FY24 is estimated to be 53.3%**)

Possible Impact on Earnings while JPY Interest Rate Hikes (provisional calculation)

If the policy interest rate rises to 0.50%, we expect ROE (based on stockholders' equity) to reach 9-10%
/ ROE defined by TSE to reach 8%

[Amount increase in gross operating profit]

(JPY bn)

※Figures in [] are compared to the initial provisional calculation*1

<Assumption for provisional calculation>

- ✓ Balance sheet : Unchanged
(Negative interest rate cancellation ~ 0.25% : As of end of Mar. 2024, 0.25→0.50% : As of end of Sep. 2024)
- ✓ Reflecting the impact on loans, investment bonds and time deposits with interest rates that will be updated within a year, as well as savings accounts, deposits at the BOJ and interest rate swaps
- ✓ $ROE = \frac{\text{Net income (FY24 target*2)} + \text{Impact of the interest rate hikes}}{\text{Total stockholders' equity (TSE standard: equity)}}$

(Notes) Major factors not considered in the provisional calculation

<Upsides ↑>

- Increase in the balance of loans and investment bonds (Volume factor)
- Impact on loans with interest rate that will be updated after a year

<Upsides / Downsides ↑↓>

- Fluctuations in the deposit beta of loans and deposits

<Downsides ↓>

- Increase in expenses and credit costs due to inflation, etc.

Cost Control

Expand strategic investment aimed at augmenting top-line income while curbing base costs

■ Pursue both the expansion of upfront investment and the strict cost control

- Expansion of top-line (1H of FY24 +JPY32.0 bn, YoY) > Increase in costs (1H of FY24 JPY(14.9) bn, YoY) ⇒ Reduction of OHR
- Enhance the precision of expense recognition for the integration of MB's back-office operations and systems, etc. (⇒p.17)

■ Pathway toward cost structure reforms

*1. Consolidated core net operating profit (excluding net gains on cancellation of investment trusts) / Total workforce

Upfront Investment in Intellectual Capital (IT)

Develop next-generation IT / systems supporting sustainable growth and structural reforms (CX)

- Expand strategic investment aimed at strengthening our capabilities to achieve CX and growth in top-line income

[Amount of IT investment]

Overview of key measures and expected effects

- Improvement in productivity via process reforms / enhancement of top-line income

Main projects

Restructuring of trust banking and pension management systems

- ✓ Double pension asset balance (+JPY5 tn)
- ✓ Streamline the majority of existing operations

Restructuring of housing loan-related systems

- ✓ Double loan origination amount per year (+JPY1 tn)
- ✓ Reduce workload (screening related) by 60%

Development of new lending systems

- ✓ Operational reforms within lending sections
→ Maximize time spent in direct customer communication

Expected effects

(from FY22 to a 10 years later)

Integrate MB's back-office operations and systems (Scheduled in Jan. 2025) ⇒ Transition to "one platform"

- Accelerate both top-line expansion and streamlining clerical work

- ✓ Digitize branch-counter operations (introduce tablets, location-free customer reception)
- ✓ Halve the volume of branch-counter and back-office operations (utilize the Group's universal platform)

- Enhance the precision of expense recognition

- ✓ System migration expenses, etc., are expected to be collectively amortized in the 4Q of FY24
⇒ Amortization costs will decrease from FY25 onward

[MB integration costs]

*1. Development of lending- and loan-related systems, the development of trust and pension management systems, new businesses, etc.

Revision of the Resona Group Environmental Policy

Codify our stance on tackling climate change and preserving biodiversity via the involvement of the entire value chain

■ Revision of the Resona Group Environmental Policy (Nov. 2024)*1

- Updated the Resona Group Environmental Policy via a Board of Directors’ resolution based on the recognition of environmental issues, including climate change and damage to natural capital
- Clarified our stance on reducing negative environmental impacts throughout the supply chain as well as working to minimize the direct footprint of our business operations

■ Environmental Commitment (excerpt from the Environmental Policy)

Climate Change	• In addition to making a transition to net zero in our own operations, we create a flow of funds consistent with the Paris Agreement through the following initiatives and promote the transition to a decarbonized society. - We strive to appropriately manage and mitigate climate-related risks and promote initiatives to increase opportunities. - We deepen dialogue with our customers to support their medium- to long-term response to climate change and transition to a decarbonized society. - We develop and provide a variety of solutions for our customers to respond to their climate-related challenges, including supporting their sustainable finance. - We recognize that our business activities and the financial products and services we provide may cause negative impacts on climate. We will respond appropriately in case of such occasions.
Biodiversity	• In order to realize a society in harmony with nature, we strive to avoid and reduce the impact on biodiversity and conserve nature while recognizing dependencies and impacts on biodiversity in our business activities. We also support our customers' biodiversity initiatives through the provision of financial services.

■ Initiatives to Preserve Biodiversity

- ◆ Starting with heat map analyses covering each sector, we assessed client sectors deemed to have greater dependency and impact on the natural environment. In addition to an assessment of sector-based dependency and impact, we also determined the proportion of the Group’s financing portfolio each sector accounts for. (The results were disclosed in Jul. 2024)
- ◆ Going forward, we will continue striving to implement more sophisticated and detailed analyses in line with the LEAP approach based on the TNFD framework. By doing so, we will assess the financial impact of nature-related issues.
- ◆ With the aim of protecting the natural environment at the regional level and enhancing the resilience of communities, we will also engage in initiatives that involve employees and customers looking to play their part in preserving biodiversity.

E (Environment): Retail Transition Finance

Enhance assistance to retail customers and continuously act as their “running partner,” helping them update their awareness and transform their modes of behavior

1H of FY24 transaction volume: Approx. JPY820 bn : Expanded such financing to a total of JPY2.7 tn over the course of the past 1.5 years, for a progress ratio of around 91% against MMP target (JPY3 tn / 3 years)

Cumulative total (Apr. 2021-) of approx. JPY4.6 tn (Target for FY30: cumulative total of JPY10 tn)

*1. The Small and Medium Enterprise Agency “2024 White Paper on Small and Medium Enterprises in Japan” *2. Carbon Neutrality

E (Environment): Carbon Neutrality (1) -Scope1 & 2-

Initiatives to reduce greenhouse gas (GHG) emissions (Scopes 1 & 2) arising from the Group's energy use

Measures to achieve our carbon neutrality target (reducing CO2 emissions to net zero by the end of FY2030)

- Steadily reduce the volume of CO2 emissions via the proactive introduction of clean energy, such as renewable energy, with the utmost priority placed on reducing emissions attributable to electricity use, the source of 80% of our emissions
- Completed the switchover of energy sources at energy-intensive facilities, such as head offices and back-office centers, by the end of FY2022 and shifted our focus in FY2023 to promoting similar switchovers at branches
- Aim to achieve a 100% switchover to renewable energy sources, etc., at facilities for which energy is directly procured by the Group by the end of FY2025

[CO2 emission reductions due to the introduction of renewable electricity (t-CO2)*1]

[CO2 emissions volume (t-CO2)*2]

*1. The difference between emission volumes determined using the basic emissions factor and emission volumes calculated in accordance with the adjusted emissions factor as set out in the Act on Rationalization of Energy Use and Shift to Non-fossil Energy (Energy-Saving Act) and the Act on Promotion of Global Warming Countermeasures (Global Warming Countermeasure Act)

*2. Results for FY20 to FY22 have obtained third-party assurance

E (Environment): Carbon Neutrality (2) -Scope3-

Initiatives to reduce GHG emissions (Scope 3, Category 15) from our investment and financing portfolio

- Committed to achieving net zero by 2050 in terms of GHG emissions from our investment and financing portfolio
- Progress toward achieving the interim target with regard to financed emissions from the energy sector (carbon emission intensity of 100 to 130gCO₂e/kWh in FY2030)
 - The sector's carbon emission intensity as of the end of Mar. 2023 surpassed that of the previous fiscal year (+11gCO₂e/kWh), reflecting growth in the volume of energy sourced from thermal power plants due to the prolongation of periodic inspections targeting nuclear power plants run by some clients. However, the figure still remains below the 2030 carbon emission intensity^{*1} envisioned in the 1.5 °C scenario (NZE2050 scenario).

- Proactively extend lending aimed at supporting renewable energy power generation and thus maintain the proportion of renewable energy-related lending in the overall financing portfolio associated with the energy sector
- Plans call for reducing the balance of credit extended in connection with financing for existing coal-fired thermal power generation projects to zero by the end of FY2035 (We have established and announced a “Basic Stance on Lending” that includes a policy of abstaining from freshly extending financing for coal-fired thermal power generation, except when there are compelling reasons to do so, such as to realize economic restoration following a disaster.)

Future Initiatives

- ◆ We will give due consideration to Japan-specific circumstances in order to support the stable supply of energy even as we contribute to the widespread use of renewable energy—an essential solution for decarbonization—while helping clients achieve transition and technological innovation. In these ways, we will continue playing our part in the decarbonization of Japan's energy sector.
- ◆ We will also consider assessing the financed emissions from and formulating interim targets for key sectors other than the energy sector
- ◆ Looking ahead, we will continue to act as a “running partner” for retail customers and to assist them in the transition of their awareness and modes of behavior. By doing so, we will strive to assess and reduce the volume of financed emissions associated with credit extended for retail customers.

Initiatives to empower diverse human resources to achieve success

■ 13th Resona Women's Council (Apr. 2023-Mar. 2024)

- Consisting of around 20 members with diverse attributes (titles, age, Group company affiliations, etc.)
- Engage in bottom-up activities, i.e., delivering proposals on women's networking, the enhancement of women's career awareness, the revision of various personnel systems, the implementation of operational improvement measures and the planning of new products

A picture taken at the meeting

[Main achievements deriving from Resona Women's Council]

- Enhancement of childcare leave-related programs
- Institution of a mentoring system
- Introduction of a reinstatement support program
- Establishment of the Job Return System
- Launch of a system enabling transition from full-time to part-time employee status and vice versa^{*1}

■ A trainee system for nurturing female branch managers (Oct. 2022-)

- A system aimed at securing a robust pool of female executive candidates and nurturing female senior managers
- Enable female employees whose careers have been centered on specific operations to take on challenges in unfamiliar areas and thereby achieve further career advancement

■ Changes in eligibility requirements for those applying for special working arrangements for child rearing- or nursing care-related reasons (Apr. 2024-)

- Develop an environment that enables both male and female employees to work over the long term with confidence, pursue their desired careers and fully realize their potential (Example: Lengthened the period in which employees are allowed to work shorter hours in order to take on child rearing and nursing care)

■ Step up initiatives to encourage male employees to play greater roles in child rearing

- Established a framework allowing cessation from work for childcare upon childbirth in line with the revision of relevant laws in Oct. 2022

< The Resona Group's response >

- ✓ Designated the first 14 days of postnatal paternity leave as paid leave and promoted the utilization of such leave along with five days of childbirth leave granted upon a spouse giving birth

[Male employees' status of childcare-related leave]

FY	2017	2018	2019	2020	2021	2022	2023

Ratio of male employees taking childcare leaves(%)	-	-	-	-	80.3	98.2	100.8

■ Develop an environment in which employees with disabilities can work with confidence

- Transition Resona Mi Rise, which has proactively employed people with disabilities, to a wholly owned subsidiary of Resona Holdings (Apr. 2024), thereby enabling it to serve as a common platform for the Group that promotes employment for such people
- To promote the employment of people with disabilities, we will utilize this subsidiary's know-how in developing the vocational abilities of such people and updating their working environments in a manner aligned with their individual aptitudes

*2. Individuals who have acquired high-ranking qualifications via in-house specialist certification systems or other similar qualifications

*3. Learning management system, talent management system

S (Society): Six Drivers for Realizing Human Resource Strategy (2)

[1] Leadership

- ◆ Enhanced the content of training for department and branch managers
- ◆ Stepped up the recruitment of mid-career hires in addition to implementing follow-up training and hosting interaction meetings

[Number of mid-career hires]

[2] Transcending boundaries

- ◆ Developed the alumni network (Apr. 2024-)
- ◆ Enhanced “boundary-transcending” programs (e.g., externally dispatching employees)

[Participants in external training / Ratio of opportunities afforded via in-house posting]

[3] Speciality

- ◆ Expand investment aimed at developing specialist human resources (e.g., external training, assistance to employee efforts to acquire high-profile certification)
- ◆ Step up the development of DX- and IT-related human resources

[Individuals earmarked for specific specialist courses]

[4] Employee autonomy & support

- ◆ Expand investment aimed at supporting self-motivated learning
- ◆ Enhance career development assistance (e.g., enhancement of internship and in-house job-posting programs)

[Participants in Career Colleges and Career Fairs]

(Cumulative total since Apr. 2021; people)

[5] Job fulfillment

- ◆ Increase opportunities offered to enable employees to share their ideas about the Purpose (⇒ p.35)
- ◆ Vitalize communications (e.g., interactions among younger employees and the use of in-house SNSs)

[Moments in which employees in their 20s feel a sense of job fulfillment and their opinions regarding the openness of our corporate culture*1]

[6] Worker friendliness

- ◆ Promote health management (host walking events and training sessions)
- ◆ Step up assistance to employees striving to balance work and family duties (Revise the conventional system that grants special arrangements to employees engaged in child rearing or nursing care)

[Number of days of paternity leave utilized by male employees / Utilization ratio]

S (Society): Sponsoring B.LEAGUE (Jul. 2024)

“Create an exciting future” and “Contribute to the development of regional communities”

- Became a title partner*1 for B.LEAGUE, a professional male basketball league in Japan
- To enhance the corporate value of the Resona Group, we have decided to undertake activities in collaboration with B.LEAGUE, which boasts a strong public appeal, as part of our regional contribution, marketing and branding efforts.

Why B.LEAGUE?

- ✓ B.LEAGUE consists of 38 clubs in 32 prefectures across Japan that cherish their ties with regional communities, fans and partner companies.
- ✓ The purpose of B.LEAGUE, “Kokoro Tagiru.” (burning passion), resonates with the underlying concept of the Resona Group’s Purpose as the two entities share the same passion for regional contribution.

S (Society): Helping Raise Financial Literacy

Promote financial and economic education tailored to meet needs in each age group in order to enhance our asset formation support functions

Main initiatives

■ Initiatives that leverage strengths and resources we possess as a financial group

 Elementary and junior high school students	● Resona Group Kids' Money Academy (2005-) ● Resona Teens' Money Academy (2018-) We offer programs in which elementary school students can learn about such topics as the role of banks through quizzes and games developed by Group employees, as well as programs designed to enable junior high school students to gain financial literacy and learn how to wisely handle their money as well as how the economy works.	
 High school students	● On-site lectures Implement programs designed to instill literacy related to life planning, asset formation and other topics to meet various needs of schools ● Economics Koshien Hosted regional tournaments for the "Economics Koshien" (high school championship), a quiz event in which young people from regions nationwide pit their knowledge of financial and economic topics against one another	
 University students	● On-site lectures and coordinated lectures Provide lectures on the prevention of financial problems and the formation of assets while enabling students striving to become teachers to hold mock lectures, etc. ● Endowed lectures These lectures entail discussions not only of such topics as finance and regional economies but sustainability-related subjects	
 Businesspeople, etc.	● Seminars held for the employees of corporate customers, such as business operators who entrust their pension assets to us Seminars designed to help audiences understand the necessity of and tips on asset formation ● Seminars aimed at enabling the elderly to defend themselves from special fraud Hold seminars in collaboration with police departments and local governments, etc., to prevent special fraud	

■ Disseminate information via SNSs and YouTube

■ Released a new educational video discussing financial and economic topics (Mar. 2024-)

- Accommodate customer needs (around 90% of questionnaire responses from customer households engaged in child rearing indicate their need for financial and economic education^{*1})
- Video programs for junior and high school students were produced via tie-ups with popular lecturers at cram school Yoyogi Seminar

G (Corporate Governance): Initiatives for Corporate Governance Evolution

Our initiatives to improve the effectiveness of the Board of Directors' operations

Topics addressed in free discussion sessions

- ✓ Thanks to reports furnished by Group CxOs, the Board is better positioned to exercise cross-divisional oversight, functioning as a monitoring board with clearer awareness of issues the Group is now confronting
- ✓ Over the course of free discussion sessions, the Board engages in deliberations regarding the Group's future initiatives involving even longer time frames and also reviews growth stories with an eye to realizing its Purpose and Long-Term Vision, which were established in the previous fiscal year

Structure supporting in-depth discussions

- ✓ Secure regular opportunities for outside directors to exchange opinions with one another and with the CEO
- ✓ Foster mutual understanding that facilitates in-depth discussions based on a shared awareness and recognition of issues confronting the Group

Facility tours

- ✓ Organized tours of facilities related to topics discussed at Board of Directors meetings
- ✓ In FY23, directors toured RB's Tokyo-based branches and Osaka Head Office, deepening their understanding of business activities and operations (joint tours; also attended by RB's outside directors)

Succession Plan (introduced in Jun. 2007)

- Our mechanism for ensuring the succession of roles and responsibilities to be borne by executive officers
- The scope of the plan covers various candidates for HD and group banks, ranging from those who are presidents to those who are new candidates for executive officers
- Candidates are classified by job rank and systematically undergo selection and training programs

Remuneration for directors and executive officers

Outline of the plan for reduction of policy-oriented stock holdings (released in May 2024)

- Aim to create new value to be delivered to customers/
create management resources that can be allocated to growth investment and structural reforms
- Drastically increase the pace of reduction
 - Reduce over 2/3 of book value by the end of March 2030 (compared with 2024/3)
 - Reduce the fair value-based ratio to consolidated net assets to 10% level (will reduce the ratio to the 20% level in three years in the best-case scenario)
- Creating and utilizing capital (equivalent to JPY300 bn) to accelerate growth
 - Accelerate efforts to address issues confronting our customers and society as a whole and structural reforms and the strengthening of foundations, which are both necessary to realize CX

[Stock holdings]

*1. Acquisition cost basis. Stocks and others without a quoted market price and investments in partnerships are excluded

*2. Policy-oriented stocks are classified into (i) policy investment stocks and (ii) strategic investment stocks, according to the purpose of holding. Of these, (i) policy investment stocks are targeted for reduction of the balance. All listed shares held by group banks are (i) policy investment stocks

Expand the balance of trust-based AUM, starting with addressing social issues

Social background

- ◆ Public pension problem, extended longevity, inflation
- ◆ Case in the United States: The continuation of asset management after retirement became the standard

What customers require of us

- ◆ Need to support post-retirement asset formation vehicles for both corporate and individual customers
- ◆ The prolongation of asset longevity; help customers maintain ongoing asset management even as they draw on their holdings, with an eye to passing such assets down to their successors

Until now

Analysis of Current Status with the Aim of Improving Corporate Value

- **PBR is on a recovery track**

[Trends in PBR]

- Aim for improvement in corporate value by both raising ROE and reducing capital costs

$$\text{PBR} = \frac{\text{ROE} \times \text{Leverage following risk adjustment}}{\text{Capital costs}}$$

- The current MMP aims for a target ROE of 8% through the strengthening of the RAF and proactive BS management

- Previous MMP period: Profit/loss conditions were negatively impacted by such factors as the radical expansion of BS, growth in the balance of assets with low utilization and the recording of credit costs for major clients as well as costs for measures to improve the soundness of our foreign bond portfolio.
- Current MMP period: Aim to improve risk return through more proactive engagement in risk-taking endeavors

Resona Group's Brand Identity

The Resona Group's corporate name was derived from the Latin word (resonus) meaning "resonate" or "resound" in English.

We attach great importance to customers' voice.
By adopting the corporate name Resona, we want to express our desire to build stronger ties with our customers by "resonating" or "resounding" with them.

Group Logo expresses the resonance between the "R" in Resona and the "R" in the Group's key word "Regional."

RESONA

The two "Rs" inside a perfect circle to express a sense of security and trust.

Green suggests "gentleness" and "transparency" and orange creates a sense of "familiarity" and "warmth."

Basic Concepts on the Exercise of Voting Rights of Policy-Oriented Stocks

- Resona group has established the “Policy for the Voting Right Exercise Standards of Holding Policy-Oriented Stocks” in relation to exercise the voting rights of policy-oriented stocks. We have built a process to individually judge and verify the approval or disapproval of all proposals.

- Fundamental concepts on the exercise of voting rights

The Resona Group will exercise voting rights of policy-oriented stocks based on the following policy:

1. Irrespective of interests of transactions with clients, make an effort to vote yes or no on an individual basis from the viewpoint of sustainably improving corporate value;
2. Not to exercise voting rights in a manner to resolve certain political or social problems; and
3. If any scandal or an anti social act is committed by a company or corporate manager, etc., exercise voting rights with the intention of contributing to the improvement of corporate governance.

- Guidelines for the Exercise of Voting Rights

With the aim of exercising its voting rights in an appropriate and efficient manner, the Resona Group will abide by the following guidelines:

1. Base voting judgments on the following points:
 - a. whether the way the vote is cast helps the Company and/or the investee achieve sustainable and long-term growth in corporate value;
 - b. whether the way the vote is cast is consistent with the overall interest of shareholders.
2. In particular, before casting a yes or no vote on one of the following types of agenda items, give due consideration to whether voting contributes to growth in the investee’s corporate value:
 - a. shareholder proposals;
 - b. introduction or renewal of anti-takeover measures;
 - c. agenda items proposed by a corporation that was found to be implicated in a scandal or an antisocial act;
 - d. approval of financial statements not backed by an unqualified opinion issued by the accounting auditor;
 - e. dismissal of directors, accounting auditors, etc.
3. When a vote is cast in opposition to the Company's intention, the Board of Directors will review the status of the exercise of voting rights to confirm whether these guidelines were fully observed. The Company will also strive to increase the sophistication of its exercise of voting rights by, for example, revising these guidelines.

Responses to the Ongoing International Discussion over Further Tightening of Financial Regulation

Major items of financial regulation being discussed internationally / Impact on Resona

- Regulations based on the finalized Basel 3 took effect from the closure of FY2023 operating results. However, these regulations are currently considered to have no major impact on the Company's operations.

Major regulatory items	Outline of regulation	Important updates
Finalization of Basel 3 • Review of Standardized Approach (SA) (Credit and operational risks) • Review of IRB approach • Capital floor based on SA	Reviewing credit risk calculation method to enhance the risks sensitivity and improve comparability. Reviewing operational risk calculation method to reflect loss data. New capital floor rule requiring a reference to the SA (final output floor calibration : 72.5%).	• Impact of Basel 3 finalization has already been factored into each strategy. • Common Equity Tier 1 (CET1) capital ratio (international standard, the full enforcement, excluding net unrealized gains on available-for-sale securities) is 10.15% as of Sep. 30, 2024.
Liquidity regulations (LCR/NSFR)	[LCR] Requiring banks to hold high-quality liquid assets to prepare for significant outflow of funds under a severe stress. [NSFR] Requiring banks to hold certain capital and liabilities for the risk of having illiquid assets.	• Minimum requirements are applicable to banks subject to the International standard.
Leverage ratio	Introduced to complement capital adequacy ratio requirements. Tier 1 capital as a numerator. Exposure amount, not RWA, to be a denominator.	
IRRBB (Interest rate risk in the banking book)	To strengthen the interest rate risk management by measuring the decline in economic value of equity (ΔEVE) and net interest income (ΔNI) under certain interest rate shock scenarios.	• Pillar 2 regulation. The threshold of ΔEVE is set at within 15% of Tier 1 capital (in case of domestic standard banks, within 20% of Total capital), the figures are within the threshold.
Various capital buffers G-SIBs/D-SIBs, TLAC	Capital buffer requirements include capital conservation buffer, counter-cyclical buffer and SIBs' buffer. TLAC requires banks to hold additional capacity to absorb loss.	• Capital buffers are applicable to G-SIBs/D-SIBs, and banks subject to the International standard. TLAC is applicable to G-SIBs and other.
Response to the end of publication of euro-yen TIBOR	The publication of euro-yen TIBOR will be terminated at the end of Dec. 2024.	• In anticipation of this move, we will promote the phased switchover of standard interest rates for lending and other assets.
