■ To further improve ROE, strengthen the RAF and proactive BS management

- Previous MMP period: Profit/loss conditions were negatively impacted by such factors as the radical expansion of BS, growth in the balance of assets with low utilization and the recording of credit costs for major clients as well as costs for measures to improve the soundness of our foreign bond portfolio.
- Current MMP period: Aim to improve risk return through more proactive engagement in risk-taking endeavors

Basic Concepts on the Exercise of Voting Rights of Policy-Oriented Stocks

Resona group has established the “Policy for the Voting Right Exercise Standards of Holding Policy-Oriented Stocks.” We have built a process to individually judge and verify the approval or disapproval of all proposals.

■ Fundamental concepts on the exercise of voting rights

The Resona Group will exercise voting rights of policy-oriented stocks based on the following policy:

1. Irrespective of interests of transactions with clients, make an effort to vote yes or no on an individual basis from the viewpoint of sustainably improving corporate value;
2. Not to exercise voting rights in a manner to resolve certain political or social problems; and
3. If any scandal or an anti social act is committed by a company or corporate manager, etc., exercise voting rights with the intention of contributing to the improvement of corporate governance.

■ Guidelines for the Exercise of Voting Rights

With the aim of exercising its voting rights in an appropriate and efficient manner, the Resona Group will abide by the following guidelines:

1. Base voting judgments on the following points:
 - a. whether the way the vote is cast helps the Company and/or the investee achieve sustainable and long-term growth in corporate value;
 - b. whether the way the vote is cast is consistent with the overall interest of shareholders.
2. In particular, before casting a yes or no vote on one of the following types of agenda items, give due consideration to whether voting contributes to growth in the investee’s corporate value:
 - a. shareholder proposals;
 - b. introduction or renewal of anti-takeover measures;
 - c. agenda items proposed by a corporation that was found to be implicated in a scandal or an antisocial act;
 - d. approval of financial statements not backed by an unqualified opinion issued by the accounting auditor;
 - e. dismissal of directors, accounting auditors, etc.
3. When a vote is cast in opposition to the Company's intention, the Board of Directors will review the status of the exercise of voting rights to confirm whether these guidelines were fully observed. The Company will also strive to increase the sophistication of its exercise of voting rights by, for example, revising these guidelines.
